TESTIMONIALS

Reach out to us to experience for yourself why over 3000 schools in Australia has chosen Virtunet as their technology partner & IT hardware supplier. Below is one of the hundreds of positive testimonials we've received from our valued education clients:

"Virtunet were able to provide all hardware, software and licensing requirements to replace what the MSP provided. Virtunets customer service and response is impressive and they have been extremely flexible working with our schools requirements. We at Alesco Illawarra see Virtunet as a valuable resource and run with them for their wide range of products, knowledge and contacts"

"With so many projects on the go, it's great to know we can have a single point of contact for the largest of infrastructure orders, down to the smallest obscure parts. Virtunet has always been dedicated to fast response, to-the-point pricing, exceptional post-sales support and product recommendations. They take the time to listen and understand our needs, and find the solution that best fits our objectives and budgets. Virtunet continues to impress us, and outperform their competitors daily. I have no hesitation in recommending Virtunet to be your single point of contact too"

"Dealing with Virtunet for the last few years, the experience with their representatives has always proven to be fast, reliable and helpful. The pricing is competitive and the time between getting the initial quote to getting the ordered delivered has always been fast, easy and pleasant. Everyone from Virtunet I have dealt with has always been pleasant and easy to work with, and they are my number one supplier for equipment"

iPad in Education

The power and flexibility of iPad gives students the freedom to explore and express new ideas whenever and wherever inspiration strikes. Mac has the power to bring their biggest ideas to life. And built-in apps and intuitive software create an incredibly personal learning experience for each student — one that can be as unique as they are.

Technology designed to be as limitless as a child's imagination.

iPad is designed for complete freedom of expression and freedom of movement. With amazing apps and advanced built-in technologies, iPad can be anything students want to be, and it has the power to create anything students dream up. Yet it's so intuitive, they can immediately take an idea and run with it.

Mini just got mightier.

iPad mini is beloved for its size and capability. And now there are even more reasons to love it. The A12 Bionic chip with Neural Engine. A 7.9-inch Retina display with True Tone. And Apple Pencil, so you can capture your biggest ideas wherever they come to you. It's still iPad mini. There's just more of it than ever.

"NEW" Apple Mac Mini

New guts. More glory.

The Apple M1 chip takes our most versatile, do-it-all desktop into another dimension. With up to 3x faster CPU performance. Up to 6x faster graphics. And our most advanced Neural Engine for up to 15x faster machine learning. Get ready to work, play, and create on Mac mini with speed and power beyond anything you ever imagined.

iMac

21.5"

27"

The all-in-one for all.

It's beautifully designed, incredibly intuitive, and packed with powerful tools that let you take any idea to the next level. And the new 27-inch model elevates the experience in every way, with faster processors and graphics, expanded memory and storage, enhanced audio and video capabilities, and an even more stunning Retina 5K display. It's the desktop that does it all — better and faster than ever.

"NEW" Apple MacBook Air

Power. It's in the Air.

Our thinnest, lightest notebook, completely transformed by the Apple M1 chip. CPU speeds up to 3.5x faster. GPU speeds up to 5x faster. Our most advanced Neural Engine for up to 9x faster machine learning. The longest battery life ever in a MacBook Air. And a silent, fanless design. This much power has never been this ready to go.

13.3" Retina display

8-core Apple M1 Chip

up to 16GB unified memory

up to 2TB storage

"NEW" Apple MacBook Pro

All systems Pro.

It's here. Our first chip designed specifically for Mac. Packed with an astonishing 16 billion transistors, the Apple M1 system on a chip (SoC) integrates the CPU, GPU, Neural Engine, I/O, and so much more onto a single tiny chip. With incredible performance, custom technologies, and industry-leading power efficiency,¹ M1 is not just a next step for Mac — it's another level entirely.

13.3" Retina display

8-core Apple M1 Chip

up to 16GB unified memory

up to 2TB storage

Big on performance. Light in the backpack.

The incredibly thin and light MacBook Air is now more powerful than ever. It features a brilliant Retina display, new Magic Keyboard, Touch ID, processors with up to twice the performance, faster graphics, and double the storage capacity. And with all-day battery life, our most popular Mac is your perfectly portable, do-it-all notebook.

13.3" Retina display

up to 4-core Intel Core i7 processor

up to 16GB memory

Education Finance.

Apple Financing

Apple's education finance program gives your school several finance options. Flexible terms make it easy to upgrade and finance multiple Apple products at the same time.

Maximum flexibility to meet your needs

- Select the payment schedule that fits your budget cycle: annual, semi-annual, quarterly or monthly.
- Finance the equipment you need with no down payment.
- Get payment and trade-in options tailored to your needs.
- Include software, upgrades, support and training in your finance payment.

How to Apply

- For more information call 1300 860 816.

Apple's educational finance program solutions give your school more spending power and greater flexibility than buying outright with cash.

iPad and teacher app management with Jamf School

Jamf School is accessible management for IT, teachers and parents. Jamf School management also also helps foster education with the Jamf School Teacher, Jamf School Student and Jamf Parent apps.

Apple Professional Learning Specialists

The Virtunet short workshops will help your teachers build new skills with Apple products and integrate them into learning to create innovative instruction across all year levels and subject areas. Some examples include our "Everyone can Create" workshop which explores how to integrate creativity through drawing, music, photography and video into lessons, and our "Everyone can Code" workshop which introduces coding concepts and fundamental coding skills into the classroom.

We can also tailor long term strategic engagements to coach, mentor and support teachers and school leaders in advancing their teaching and learning programs with an emphasis on innovation, to engage students in deeper learning. Virtunet provide a comprehensive set of Personal Development courses thought by actual teachers who are experienced, trained and certified by Apple – iPad learning, AR, Learning with Mac and much more!

- Visionary conversations
- Consultative relationships
- Flexible curriculum integration practices
- Hands-on and immersive learning experiences
- Research-based instructional technology strategies
- Personal experience with innovative teaching and learning

jamf | PRO

Jamf Pro is the undisputed market leader for schools. It's known for its scale, robust Mac management capabilities and customization, and thriving Jamf Nation, the world's largest Apple IT administrator community.

jamf | SCHOOL

Jamf School is purpose-built for education. It is known for its simplicity, speed to set-up, teacher-specific workflows as well as a set of teacher and parent apps.

Jamf School Teacher

Gives teachers the tools to manage their class and keep students focused - regardless of where they are learning. This includes restricting websites, apps and the camera, plus locking all student devices at once.

Jamf School Student

Gives students restricted permissions over their own device, allowing them to focus on their education and eliminate distractions.

Jamf Parent

Gives parents the ability to limit apps and device functionality on their student's device; again, eliminating potential distractions from learning.

Our Best Seller

APPLE IPAD CASES

Virtunet Asset Tagging Services

Schools have substantial investments in stores, equipment, furniture, books and other learning materials. Although most items are covered by insurance administered within the Department, proper asset management procedures must be followed on purchases, custody, loss or disposal of these items to ensure accurate and up-to-date information is maintained.

This policy is aimed to guide schools in accounting for assets in accordance with relevant accounting standards and legislation.

By keeping appropriate records and identifying valuable items of school equipment and furniture, losses can be minimised and the value of the assets can be used to deliver educational services for the school. Call the Virtunet Services team to assist and simplify asset tagging for you and your school.

Help educators discover the features that make Chromebooks easy to use, secure by design and support anywhere learning

A range of secure, simple yet powerful devices that update automatically, are easy for schools to set up and manage, with multiple form factors including a tablet, accessibility features and the best of Google built in.

Easy to use

- Engage students and empower teachers and guardians with devices that are simple to deploy, manage and use.
- Chromebooks are easy for schools to set up and manage and easy to use, engaging students and empowering teachers straight from the box – without the need for extra courses or training.
- Never worry about installing new software because automatic background updates install the latest and greatest security patches and features every 6 weeks without any downtime.

Secure by design

- Protect your school and student data from evolving online threats.
- Built with advanced security at the core.
- Continuous detection and prevention

Support anywhere learning

- Boots up in under 8 seconds.
- Over 8 hours of battery life.
- Work online or offline.
- Create and collaborate

Tools for collaboration, communication, and creativity

Google for Education gives teachers the freedom to spend more time personalizing the learning experience, and less time managing it. Students can learn 21st-century problem-solving and the skills they'll use in their future careers, with accessibility features that help every student do their best work.

Easy IT administration for organizations of all sizes

Google for Education products are easy to deploy, use, and manage. With a few clicks, IT administrators can set up new devices and manage policies across an entire school or district. Automated, cloud-based management streamlines processes and ensures all users stay up to date.

Budget-friendly, with security built in

G Suite and Classroom are free for schools, and shareable Chromebooks extend the benefits of technology easily and affordably to more students—with 24/7 support and multiple layers of security to keep students and data safe.

VIRTUNET HELPS YOU TO TURN YOUR OLD DEVICES INTO NEW AND FAST CHROMEBOOK

Built from the same technology foundation as Chromebooks and Chrome OS, CloudReady is the only way to give new life to your existing PCs and Macs (up to 13 years old) while reaping all the management benefits of the Google Admin console.

Thousands of schools and districts around the world have already modernized their existing computers by installing CloudReady to convert them to Chrome devices.

TRANSFORM ANY TECHNOLOGY

CloudReady's fast, lightweight OS means computers with faster boot times, increased browsing speed and greater reliability, with minimal disruption.

REDUCE IT TIME AND EFFORT

CloudReady is built from the same technology and security foundation as Chromebooks, bringing an end to device re-imaging, time spent updating and worry about security vulnerabilities.

SIMPLIFY DEVICE MANAGEMENT

Pairing CloudReady devices with Chrome Education licenses enables full administrator control and easy, secure device management via Google's cloud-based Admin console.

As illness and other factors prevent students from attending school in-person, how might educators leverage powerful tools to extend learning to home environments? Using Google Meet, school and district leaders can enable premium features and educators can use Google Meet for virtual learning.

GOOGLE MEET - FEATURES:

- Start a video meeting and add participants
- Share screen and facilitating instruction virtually
- Assessing students remotely
- Better virtual classroom management and record the session
- Prepare students for remote learning

KnowBe4 Security Awareness Training

Old-school security awareness training doesn't hack it anymore. Today, your teachers, administrators and even students are frequently exposed to sophisticated phishing and ransomware attacks.

-  **Baseline Testing**
We provide baseline testing to assess the Phish-Prone™ percentage of your users through a free simulated phishing attack.
-  **Train Your Users**
The world's largest library of security awareness training content; including interactive modules, videos, games, posters and newsletters. Automated training campaigns with scheduled reminder emails.
-  **Phish Your Users**
Best-in-class, fully automated simulated phishing attacks, thousands of templates with unlimited usage, and community phishing templates.
-  **See the Results**
Enterprise-strength reporting, showing stats and graphs for both training and phishing, ready for management. Show the great ROI!

My staff is excellent at teaching, but aren't as experienced with technology, and they don't have time in their busy days to gain a better understanding of technology and information security. The KnowBe4 Security Awareness Training model was a way to get their attention and their interest. 'You just got had with a phishing email' stands out and would grab anyone's attention!

STEM Learning - Coding Robots

Sphero BOLT Education 15 Pack + Power Pack

- Charge, store, and carry Sphero BOLT robots... times 15.
- With more robots, a longer battery life (2+ continuous hours), auto-aiming, and more, the BOLT Power Pack is the top of the line kit for educators using the Sphero Edu program in a classroom.

Sphero BOLT Education 15 Pack

- The Sphero BOLT 15 pack contains everything you need to get started. Teach robotics and the fundamentals of programming, and then some.
- This special pack of 15 BOLT robots and charging cradles is available exclusively to educators.

Sphero RVR Edu 5 Pack

- It includes 5 programmable RVRs so your class can enjoy the ideal student-to-robot ratio. Work in groups to build mobile projects, compete in a Hackathon, or deploy RVR's IR capabilities and experiment with bot-to-bot communication, robot follow, and robot evade.

Osmo is changing the way students collaborate, communicate, and create.

OSMO for School

Osmo Classroom Kit - Genius Edition

- Charge, store, and carry Sphero BOLT robots... times 15.
- With more robots, a longer battery life (2+ continuous hours), auto-aiming, and more, the BOLT Power Pack is the top of the line kit for educators using the Sphero Edu program in a classroom.

Osmo Coding Starter Kit

- The Osmo Classroom Kit is a premium kit for educators. It includes an expansive collection of Osmo games that allow students to explore science, maths and art. It encourages visual thinking and creative problem-solving in a playful hands-on way.

Osmo New iPad Base + Mirror V2

- With the new Osmo Base for iPad, your tablet can see and react to actions in front of the screen, instantly.
- The new base updates include improved stability, increased device compatibility plus it works in landscape mode!
